

# JAMES CHO

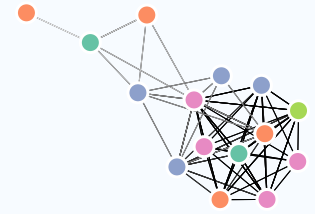

As soon as you're comfortable, move. Innovating through technology and relationships to solve complex problems in high risk environments is my passion. I've had the privilege to work with the nation's best to support challenging communications missions enabling Humanitarian, FORSCOM, NATO and SOF operations. I enjoy disrupting the status quo and challenging what is possible as a leader in the military by choosing a non-traditional career path. Adapting to change and accepting risk is both critical and necessary.

## EDUCATION

- Current  
|  
2018
- **Masters Candidate, Computer Science**  
Georgia Tech 📍 Atlanta, GA
    - Specialization in Artificial Intelligence
  - **B.S., Systems Engineering**  
USMA 📍 West Point, NY
